

DOGE STRAP

STRAPPED PAPER

DOGESTRAP.COM

Introduction

Launched on July 21, 2021, Doge Strap is decentralized and, on a mission to bring crypto to the average person and help those in need while also keeping our morals by committing ourselves to safety of the investors and for that reason we renounced the ownership of the contract and locked our liquidity for 3 years and plan to do the same as that expires. Doge Strap is created under the Ethereum blockchain and is an ERC20 token. DRAP Coin has learned a few tricks and lessons from his meme coin predecessors and wants to improve on the good things they have done and remove the negativity that hit the meme community. A new crypto birthed by fans of the meme coin community and ecosystem. DRAP is here and we want to stay if we can by the support of the community and by proving that we want to be the real deal and break out of the meme category as we continue to innovate.

Disclaimer

DISCLAIMER Doge Strap including but not limited to the overall project, the token, website, smart contracts, and any apps ("Doge Strap") as presented in this conceptual paper is not a licensed, unlicensed, or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. Doge Strap is a fully and completely decentralized and community driven project and does not have owners, shareholders, promoters, marketers, managers, directors or other figures or entities exerting any form of governance; the Doge Strap smart contracts are open source, will be security audit, permanent, and non-modifiable in any way because we have renounced the ownership to the contract ask us on telegram for the TXN. The DRAP token is a strictly utility token in any jurisdiction and is pushing to be considered as a security to investor, DRAP is not in any way e-money and/or a fiat or asset backed stable coin, whether global or limited in scope but we will get there with time and innovations. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, is not an invitation, solicitation or offer to invest in Doge Strap or acquire or use its Doge Strap tokens in any way and with any expectation of profit in any form. Any user of Doge Strap declares to have received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper, the website and using any portion or element of Doge Strap (including any Doge Strap therein) and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software, interface including Doge Strap and further acknowledges with full disclaimer for any community member directly or indirectly involved with Doge Strap, that there can be any kind of damage suffered, including total loss.

04 MOONMAP

01 VISION THE

THE DREAM

We want to be the in the top echelon of the meme tokens categories. The way we want to get there is simple we are providing the security and safety to investor in the best way possible by renouncing the contract and sending it to the ETH dead wallet who no one controls. We also locked the full liquidity we added and plan to keep doing so along the way so that there is no way a pull can happen. WE INTEND TO KEEP IT THIS WAY FOREVER!

THE HELP

What we want to be able to do here at the DRAP family is create a family vibe from all the community and by creating this family environment we will be able to grow together. What we want to do at the Doge Strap family is after the growth is achieved, we want to get listed on MAJOR EXCHANGE, by doing these things we be able to get to the point where the DRAP family can do humanitarian help by building hospitals, schools, clean water pipes for developing country (we are going to be uploading footage of team members going and do this in person we don't want to relay fully on third parties.) we live by the saying "it is better to give on to others than keep for yourself." These hopes are the things that drive us to continue to push this ahead and improve.

INNOVATION.

Many new projects coming into the scene have promised a lot of efforts into innovation well not only do we want to promise this, but we also want to achieve this. You might be wondering how we are going to do this? Well, that's simple we want to main aspects to add on this project more than anything else a play to earn system directly attached to the DRAP token so you can purchase in game items and sell them like marketplace per say. We also want to attach a Learn and earn system into the utilities of the token in which you can learn various subjects and once a semester is completed you get rewarded with tokens or NFT, on the subject of NFT this is another aspect we want to develop in and award participants on the other utilities to benefit from it.

02 VALUES

Truth & Transparency

With the creation of DRAP we have been very clear from the start we do not want our investor to face the same heartache we have faced as Devs with other coins that come out and don't care about their investors. DRAP devs have been able to renounce the contract and locked the initial liquidity we stuck in the project we plan to keep locking the liquidity as time goes by and investors come and as more liquidity gets added to the pool, the initial liquidity is locked for 3 years. The Devs own 3% each of the initial supply for a grand total of 9% one of the lowest we have seen from any dev team in other coins predecessors in the past.

Longevity

We are planning to stay for a really long time our liquidity is locked for the next three years and plan to do so every chance we get when more is added to the pool. The DRAP core team wants to create a truthful environment where everyone can enjoy the benefits from their investment by fostering and adopting long term development of the ecosystem and foundation in efforts to drive real use cases, and greater rewards beyond any temporary trends.

Community

Community is everything and Doge Strap strives to include everyone from around the globe. We want to have multiple telegram channels dedicated to our international communities. Community is the building block of any project and by doing such things we will be able to push beyond any limitations that may present we grow together with love and trust and our investments grow and by doing that many community members will be the key factor to push into new heights no token has been able to do remember if DRAP has one thing going for them is that we don't want people to go through what many investors have gone through in other token project that ended up being lies.
